SUMMARY

AI & automation specialist with 7.5+ years designing, building, and scaling intelligent systems that power internal operations and client success. I architect multi-step automation workflows, integrate CRMs with email, enrichment, calendars, and collaboration tools via APIs and webhooks, and translate complex systems into clear SOPs and stakeholder-ready explanations. Recent work: an n8n + Apollo + Zoho CRM enrichment pipeline that cut hygiene effort 80%+, a 12-agent outbound suite that reduced content production effort 70%, and an AI growth stack that delivered 3x team productivity with ~30% lower operating cost. High-ownership operator comfortable in fast-moving environments — n8n, Make, Zapier, Zoho CRM, HubSpot, Apollo, Google Sheets, and LLM orchestration.

SELECTED AI & AUTOMATION SYSTEMS (BUILT & SHIPPED)

- CRM Enrichment & Hygiene Pipeline — n8n + Apollo + Zoho CRM automation via APIs/webhooks; eliminated manual data entry and reduced CRM hygiene effort 80%+.
- Multi-Step Lead Gen & Nurture Workflows — end-to-end sequences connecting enrichment, CRM stages, email outreach, and sales handoff; 40% faster discovery-call bookings and 30% lift in MQL→SQL conversion.
- 12-Vertical Outbound Agent Suite — custom AI agents mapped to ICPs, verticals, and regions for personalized multi-channel outreach at scale; 70% reduction in content production effort.
- Account Research Automation — Gemini + NotebookLM workflow automating enterprise account profiling; 600x faster than manual research (20 hrs → <2 min).
- Competitive Intelligence Bot — real-time market-tracking automation feeding battle cards and talk tracks to reps; 80% cut in deal-prep time.
- GTM AI Operations Stack — AI-first automation across campaigns, email, lead gen, ads, and collateral; 3x productivity uplift, ~30% lower operating cost.

EXPERIENCE

Lead — Growth Marketing & AI Strategy, Groupsoft US Inc / Compliance Cart

May 2025 – Present | Remote | SAP consulting & proprietary AI product firm

Owned org-wide AI and automation systems across marketing, presales, and sales operations.

- Designed and deployed scalable automation workflows (n8n, Zapier, Apollo, Zoho CRM, Slack, Google AI Studio) integrating CRM, enrichment, messaging, and outreach — ~30% lower operational cost.
- Built multi-step lead generation, nurturing, and sales-process workflows that drove 30% pipeline growth and 3x team productivity.
- Architected CRM pipelines and micro-automations for account research, enrichment, and handoff — improved data reliability and reduced manual ops.
- Translated complex AI/automation systems into SOPs, enablement kits, and plain-language guidance for founders, sales, and non-technical stakeholders.
- Partnered with leadership to audit and improve existing GTM systems for scalability, reliability, and maintainability.
- Led PLG practice using usage data and customer feedback to iterate product, pricing, and packaging.
